# The Result of Improved Performance

# SCAN COIN

The Cash Deposit System, CDS 820i. The robust self-service bulk coin deposit solution that offers strong reliability and uptime, at a reduced price.

## Strong Sensor Technology and Connectivity

The latest sensor technology is available on CDS-820i. Our highly accurate and reliable sensors identify and count deposited coins, while rejecting foreign, damaged and counterfeit coinage. You can choose the coin recognition standard you need, with performance to meet even the most demanding requirements. In order to store the cash safely a lockable coin tray is also included.

The CDS-820i can easily be connected to the customer's network allowing on-line deposit via direct transfer to an account. The customer can always get a receipt of the transaction.

## Proven Best in Class Technology

Today the Cash Deposit System is spread worldwide and recognized for its high performance and accuracy. The proven best-in-class technology, based on over 25 years of experience, has been put into the CDS-820i. The latest solution is ready to meet future demands and toughest requirements on the market.

## Highest Accuracy

The CDS-820i has even higher accuracy than ever before. This is why the "i" has been added to the name CDS-820i, standing for "Improved performance". featuring a coin cleaner and a Coin Acceptance Module, minimizing downtime and increasing the reliability and accuracy.

## Self-Service Around the Clock

Cash Deposit Systems open the way to self-service around-the-clock. They create new opportunities for smart cash processing logistics, improve customer service and release bank staff from manual cash handling for a more profitable consulting role. The modular CDS-820i enhances these benefits by providing customer-specific solutions applicable for banks and retail stores with medium to high-volume coin flows.
